Booklet Seri 13

Statu(e)s

2009-2012

Oleh: Phoenix

Facebook hanyalah satu dari sekian banyak media sosial yang ada di dunia maya, walau memang termasuk yang paling sering dipakai juga. Ribuan kata-kata dan informasi, bahkan juga emosi, tercampur aduk dan mengalir deras dalam kubangan raksasa itu. Terkadang hanya kepuasan batin yang diburu oleh jutaan penggunanya, membuatnya seperti tempat tumpahan segalanya, mulai dari curhatan remeh hingga pemikiran yang dalam. Well, tak bisa dipungkiri aku adalah salah satu dari orang-orang yang mengapung dalam sungai informasi deras itu. Ratusan kata dari yang tidak jelas hingga yang jelas aku bagikan di sana. Alangkah sayang bila semua kata itu hanya tenggelam begitu saja dalam arus tak terbendung, maka melalui dua booklet, aku arsipkan dengan rapih semuanya.

Aturanku sendiri yang membatasi halaman booklet harus berada pada rentang 40-60 halaman lah yang menjadi alasanku membagi kumpulan status Facebook ini menjadi dua bagian booklet. Well, kerapihan adalah hal yang sangat penting untuk dijaga, seperti kata seorang kawan: “karya itu suci, jadi penempatannya gak boleh kayak moral koruptor, tercecce-cecce”.

Keep my brain working.....
Bzzt....bzzt...zzt.....

Untuk sementara malam ini pnelitianq dihentikan aja,,,
udah gak kuat aq T.T

Ketemu artikel mnarik, pusing.e d.tahan skik.....

Simpangan rata-rata, ragam/varians, deviasi standar,

Satu2nya cabang yg pling gak q suka di matematika
hanyalah STATISTIKA

Mengingat masa lalu aq brcrita mngenai cita-citaku,

Complex

Unstable mind, too much thought, , ,
what a complexity..... squint emoticon

"Homunculus: Why did you not become mine God!?"
God: Because you did not believe in me."
– Hiromu Arakawa (Fullmetal Alchemist)

"Humans are so foolish, pity creature"
- Homunculus (Fullmetal Alchemist)

beware of "Subliminal images".... it's around you

"But even so, we're not devils, let alone gods. We're human. We're human!"
Hiromu arakawa (Mystery of Fullmetal Alchemist)

November 2010

"Enduring and forgiving are two different things. You must not forgive the cruelty of this world. It's our duty as human beings to be angry at injustice. But we must also endure it. Because someone must sever this chain of hatred."

– Hiromu Arakawa (Fullmetal Alchemist, Volume 18)

They control us..... wake up now!!

Q33NY.....

msh kurang bnyak, , intensitas blajar hrus dperbnyak

"I'm the original homunculus. My name is 'Pride'."

It's complexity more attacking my mind..... too much unanswered question

back to study.....

I'll research it more later

stlah brtanding 2 jam, brhasil mmukul 38 kali, mnendang 25 kali dan mmbnting 8 kali, namun kna pkulan tlak 5 kali, tndangan 6 kali dan d.banting 19 kali, , kalah telak T.T

cryptograph..... interesting, let's study more about it

It's an EYE.....

Enigma, a mystery....

Mystery.... urgh....

hari kamis memang memuaskan.... haha

again, it's a conspiracy....

I see.... it's not the end of time, but the beginning of the end.....

sempat-sempatnya aq plajari polustat relativitas einstein saat mau lomba LBB PPI,,,,...

Penasaran.....

e pluribus unum..... in God we trust, eh?

It's still a conspiracy, as well as it's a mystery

It reminds me about something....

well..... research begins.....

Ego Phoenicis ambitionis meus ignis non morietur!!!!

oh conspiracy.... you make me more and more confused

Allah tantum speramus et credimus

well, now all of it become more complex,,,,, I don't know how I should think about this....

I hope all this research can conduct one right conclusion

Quo successu Quantum theory habet, spectat ineptius

principio adpropinquavit finis, facite ut quam primum

sampe rumah selamat, wlwpun hampir tersesat dan terjebak gelap

why I hav this feeling?

can't think clearly, urf

Now I've got some conclusion about multiple intelligence theory..... Einstein really inspires me

need some rest.... my head can't hold it anymore

I studied as long as I living in this complex world

mind vs heart.... logic vs emotion

again, this feeling.....

the law of equivalent exchange in Alchemy....."To gain something, you must sacrifice something with equal value"

It's same as Antoine Lavoisier's law of conservation mass. Well.....

it's time to hunting and research

suus oculus determinationis..... spes pertingendi

well, I must admit now I'm a conspiracy theorist

oh damn.... now I'm stucked in the middle of life intersection

melihat lemariq,,,, skrang aq sdar btapa numpuknya buku yg menantiq utk dibaca

Oh sial, seandainya aq bbas dari sekolah, aq sdah mngurung diri d.kamar sndirian utk mmbaca smua buku-buku itu

Well, well.... human always just a foolish creature, as homunculus said.....

They never understand it, , , , ,

They're coward! spineless worm! dirty pigs! Pug-nose shrimp! The unforgivable human I ever know along history in this world!!!!!!

Non est alius deus absque ALLAH!!

Now with Eye of Determination, we'll destroy that brat
"Eye of Providence"

think. . . .

Damn clever that "brat"

Ternyata aq memang harus jadi sejarawan.....terlalu
banyak misteri yg harus q ungkap sendiri dalam sejarah

Trnyata sistem bahasa latin rumit banget,,,,, upset

wah, aq bru tau 18 November ada hari filsafat sedunia....

Looks like Aristotle's principle is right..... Dr. Howard
Gardner theory about multiple intelligence is wrong

oh well, sekarang aq bnar-bnar pngin polustat ke-2
Einstein berlaku..... krna memang "Demi WAKTU,
sesungguhnya manusia itu benar-benar berada dalam
kerugian"

"Why is it that nobody understands me, yet everybody
likes me?"

My life is really like a race, , , , , I don't even can think
what's behind and what's in the front

I don't know which way I've come, I don't know what
I've become.....
But I know which way I'm going.....

Well, galileo, I hope Allah make you happy in the
heaven for what you did to us :D, even you're not a
moslem,,,,, I'm impressed

I'm a little losing "something" this night.....

I'm waiting for you.....

Lapaaar upset emoticon
Tpi berat juga rasanya untuk meninggalkan layar
komputer

Now..... let's think.....(concentration)

Once Finiare, I'll be a "Finiare"..... I'll prove it!!!!

Finding for hope, searching for hero.....

kali ini kepalaku benar-benar panas....

We just have 2 choice in life, Win or Win!

arg, why I'm feeling something like this, , ,
my head's gonna explode with all these complex n
complicated things, urgh

it's why status quo must be changed radically

I'm impressed..... :D

Sial tenan ni mati listrik bru nyala sekarang, ra iso garap

This world is complex

Damn.... now it became more complicated.....

Well.... let's back to study.....

.....understand, understand, understand.....!

bener-bener gak niat blajar sejarah aq squint emoticon

Tak ada lagi yang kutakuti, ku terlindungi, dengan senyumanmu..... :)

Even most people think that science and religion can't be combined and it's totally different.....
but I believe there's a connection between it.....

tumben aq seharian nang ngarep komputer ra mumet.... Alhamdulillah,, energi mata dan otakku msih ada utk blajar buat bsok

When space and time fusing in your head, realize it complexity.....

Inilah rasanya kalau emosi mulai menghancurkan pikiran logika dan rasionalq....

Tunggu pembalasaku wahai "Emosi"!

little disappointed, but it's the beginning of my struggle

Smakin hari badanku semakin gak enak,,, cpat atau lambat, aq akan sakit

it hurts. . .

Hasbunallah wanikmal wakil. . .

Ckuplah Allah yg mnymbuhkanq. . .

you makes me better

Mrasa baikan sedikit, cari kesempatan didpan komputer....

Betapa rindunya aq dngan layar monitor.....

Kalau ada yg pnya prinsip "Be Yourself", brarti dia brusaha jadi dirinya yang statis tnpa ada perubahan.....Msa' mau brtahan dgn pmikiran yg sama trus smpe tua, , ,

Jadi mungkin harus sdikit di ubah "Be your growing self"

Aneh-aneh, Zainuddin bener jadi Zinedine, kok Fahrudin jadi Faraday.....

but.... it hurts

Baru kali ini gak ada yg dapat mnghiburku, wah.....

I hate "Red Shield".... they're coward, spineless snail, heartless worm, pitiful pig,,, damn they are!

Kembali kangen dengan kosmologi

Empty-hearted.....

Empty-minded.....

Again, ,
It hurts. . . .

Nobody will ever can understand me. . . . No one

I must try to control it..... it's too far

So, that's it.....

Dari 17 ke 2, eh? It's strange

You can hate me if you want, , , you won't need me though

This research must be done before holiday ends..... be focus phoenix!

"do you think you deserve your freedom?
No, I don't think you do"

You won't need me.....

"we were born to love and hate" eh?
It's just foolish human emotion.... be rational

I'm sorry..... but I have no other choice....

Now, now.... what happened to my life, , , , squint emoticon

"Even if things didn't turn out the way you wanted them to, you simply have to accept them and move on. Understand?"

Controlling self is the damn most difficult things a person can do in his life.....

Damn hurt y'dummy.....arrgh, my lef' eye!

Let our mercy as deep as the Feitas and our authority as powerful as the Sun be revealed to the entire World!

this damn left hurtin' eye.... get better soon y'little!

Questions of science... science and progress.... don't speak as loud as my heart

oh well..... people 'round here still didn't realize it, huh?

Sepertinya aq memang selalu diiringi kesendirian dalam hidupq..... well, but I'm fine with it, to be alone

There is no happiness, there is no sadness, in my life.....
I'm neutral with my crucial logic

Trperangkap pmikiran yg tak trjawab. . . .
There are so many unanswered question in this complex world, aren't there?

Para ilmuwan paling mudah dalam menjawab prntanyaan "bagaimana", namun mereka paling silit dalam menjawab pertanyaan "mengapa".....
Karena pertanyaan "mengapa" hanya dimiliki para filsafat.... (well, maybe it's me)

filsafat waktu bnar2 membunuh akal sehatku.....

to be a man thinker.....

That's why I choose u. . . .

hah.... akhirnya password fbq jadi 25 digit, proteksi menggila..... jika ada yg bisa menghafal passwordq selain aq sendiri, aq beri tepuk tangan

well, internet is source of emotions..... I'm not surprised if someone can summons demons from internet.....

Sekarang aq mengerti knp sebagian besar filsafat tidak beragama.....

kadang-kadang rasa nasionalisme membuat perpecahan di agama.... sperti saat kau ditanya mana yg kamu pilih agamamu atw negaramu, itulah yg terjadi antara malaysia dan indonesia sekarang ini, ingatlah bahwa malaysia adalah negara mayoritas muslim.....

ck ck ck..... aq gak bisa mmbenci malaysia krena mreka mayoritas muslim.... toh aq gak peduli pada apapun yg terjadi pada indonesia selama islam tidak terancam

Waktu brakhr ktika tngkat entropi energi alam smesta mncpai titik maksimum, well, , , entah kpan itu trjadi

I'll wait for it.... I swear in the wing of flaming phoenix

I promise.... I'll wait, 'till my days are done

seeing through the future... and in the end, we lie awake and we dream to making our escape.... escaping through this cruel world

aku siap untuk lupakan mimpi ego mudaku.....

strange....what's happened to me?

unstable heart..... damn, I'm trying to control it

semoga cepat kau lupakan aq.....
Heart-defense forces.....

it looks like a dream..... so, it's really true

When you try your best, but you don't succeed
When you get what you want, but not what you need
When you feel so tired, but you can't sleep
Stuck in reverse

When you lose something you can't replace
When you love someone, but it goes to waste
Could it be worse?

You and me are floating on a tidal wave... together

"God not only plays dice, He also sometimes throws the
dice where they cannot be seen." (Stephen Hawking).....
U're genius prof. hawking, but I hate u, because u blame
the power of science to become an atheist..... U never
know who God it is

Nobody said it was easy, it's such a shame for us to part,
no one ever said it would be this hard.....

it's 1 year more, the end of venus' transit period, and
solar storm at maximum energy will be occurred.....

Why I'm feeling like this, I hate it

2011

The Theory of Everything,
is that really exist? Prof. Hawking sometimes can be
insane in his genius

So, this is the fate, , , it hurts frown emoticon

venus' transit period is going to end.... let's see what will
happen in the sun after it

My heart is combined with my twisted logic....

What's this feeling. . . .

I'm glad I can't crying. . .

better now.....

it's not an empty-handed this holiday.... :D

When scientist fall in love. . . .

Back to my real self again.... :D

now I understand the difference between "believer" and
"thinker"..... I'm better be a thinker in science but a
believer in religion :D

"My goal is simple. It is a complete understanding of the
universe, why it is as it is and why it exists at all."
(Stephen W. Hawking)
Kenapa kata2nya Prof. Hawking persis dgn alasanku
mmpelajari ilmu fisika ya....

You must pay 4 ur crimes against the earth!
You will beg 4 their lives n their souls!
N you will burn! You will burn in hell!

Again, when scientist fall in love. . . .

So if u love me, won't u let me know. . . .

Give me ur heart n ur soul. . . .

Lagi sibuk mikir, tiba-tiba gak enak badan..... apa
brhungan ya pikiran ma fisik?
Tpi urgh.... aq gak bisa mikir lagi squint emoticon

It's the end.....

After all this problem solved.... I'll be back to my real self
again, as a logician and thinker.....

Swim out on a sea of faces,
The tide of the human races,
An answer now is what I need.
See it in a new sun rising
See it break on your horizon
Oh, come on love, stay with me...

I'm not feeling well today, , ,

Ya Allah, kpan smua pnderitaan ini brakhir?

No one's care. . . .

Ketika seseorang hidup, dia berkembang, tumbuh, blajar
banyak hal, mlai mencari jati diri, tjuan hidup, dan
selanjutnya mencari nafkah, menikah, mempunyai anak
dan membesarkannya, tua, dan kemudian meninggal.....
Siklus yg gak ada hentinya hingga entropi alam semesta
mencapai maksimum.....
Pasti ada hal lain dibalik siklus itu.....

Kenapa orang lain gak punya namanya "kebutuhan
berfikir" dalam jiwanya?
Aq gak bisa hidup klw "kebutuhan berfikir"q gak
terpenuhi.....

habis ngobrol panjang dengan Taufiqurrochman
Jogja danIkhwan Catur Rahmawan di lab multi smpe'
gak ada orang di sekolah..... :D
Visi yang gila, tpi semoga sukses!

hermetic order of the golden dawn, hermetic order of

Wah, otakq bolak-balik, dari komputer ke sains, skarang

Percayalah.... Logika murni tidak akan menipumu, tidak

give me a chance.... and I'll try to forgive

complex, complex, complex.... soooo complex! All this complexity made me CRAZY!!!! Damn! my head..... ouch

I'm barely have emotions in my heart, , , but. . .

If we really don't have any power against it.... then what the reason of our life??
There must be a way... They just a bunch of spineless worm

We're not powerles!!!!!!!!!!

Siapapun yg pernah atau sedang marah, benci, jengkel, emosi ma aq,,,,, aq tetap mnganggap kalian temanq :D inilah manfaat tlah bersihnya hatiku dari emosi

The governments of the world and the royal elite are not here to take care of you. They are here to kill you. They are not unwittingly trying to kill you. They are deliberately trying to kill you. They are deliberately trying to kill you, but for a reason that eludes even them.....

We are naive children being hammered with a hefty dose of reverse psychology. By threatening to take away our rights, our physical health, our material wealth and our spiritual freedom, we react and scream bloody murder.

No way can you do this to me ... to us!

I'm with science

It's time for us to make a move! As I said before, we're not powerless!!!!

My research keep going.... I hope I can conclude something from all this hypothesis..... I won't give up

Saatnya ku tinggalkan masa remajaku.... aq gak butuh apa2 yg dibutuhkan remaja.
Dan q hancurkan semua ideologi yg berkaitan dengan remaja dalm tubuhq.....

My brains is science, my heart is religion.....
Science and religion.... fused to become a perfectibility....

Perfectibility, the fusion of science and religion..... is that exist?

For some reason I can't explain, once you go there was never.... never an honest world....

People wouldn't believe what I'd become.....

Revolutionaries wait....

Bangun fundamental makna dalam hidup.... tentukan tujuan akhir.... berorientasilah padanya..... dan fokuskan jalan menuju kesana.....

Believe me..... this world contains more than it looks...

I'll take the risk.... this is the path I choose.....

Let me guess..... next year, there will be a chaos all over the world...

preparing for tomorrow.....

Ambiguitas makna terjadi dimana-mana.....

It's my success.... :)

If our lives are already predetermined.... then what the reason of this life?

So, fate is nothing.... I believe in neither fate nor destiny..... My future is in my own hand

Was a long and dark December

From the rooftops I remember

There was snow

White snow

Was a long and dark December

When the banks became cathedrals

And the fog

Became God

Selama kalian masih punya prinsip "hidupku ya hidupku, hidupmu ya hidupmu".... dunia gak akan pernah bsa mnjadi lebih baik dari sekarang.....

Silakan kalian hidup bersama liberalisme, jika kau merasa urusan atau hidup tiap orang tu kepentingan masing2.....

Arep sinau terlanjur sdah mencapai limit kepuasan... (hukum gossen)	Kedewasaan bukan dilihat dari umurnya, bukan dilihat dari fisiknya, tapi dari kualitas pikirannya, dari kebijaksanaannya,
Come on dude.... don't controlled by those "limitation theory" of yours.... It won't make sense	Ketika keyakinan berbenturan dengan rasionalitas....
Let's study.... thermodynamics really made me curious... :)	Hal yang dihasilkan dengan berfikir bisa menjadi fakta, tapi yg dihasilkan dengan keyakinan menjadi opini

makaan....	Takjub.... seandainya aku mengetahui itu semua
There's nothing we can do.....	Now is the beginning of the end.... and in the end, it will begin the new beginning....
Waktu cepat berlalu... aku seperti telah melakukan revolusi besar-besaran pada diriku dalam kurun waktu setahun.... Mengingat diriku stahun yang lalu dan mmbandingkannya dgn skarang, sungguh bagaikan kpompong mnjadi kupu2 :)	Entah kenapa stiap kali aku mraup dan mengolah informasi berturut2 scara berlebihan, aku slalu mrasa mual.... Penyakit yang aneh,,, efek kebanyakan berfikir
Dari kekosongan menuju kebijaksanaan.... ayo teruskan perubahan besar pada diri sendiri..... For our better future! :)	Multi-talent.... "I can do everything" #bepostitive
I still have one year to be a great person... be ready phoenix :)	Katakan padaku hal yang tidak bisa ku lakukan.... dan aku hanya menjawab "I just need some time, and I can do it"
Now it's the time... :D	Kekerasan hati tidak akan mengubah apapun.... sifat yang sangat tidak boleh dimiliki seorang pemimpin atau KETUA,.....
KESALAHAN SAAT MUDA ADALAH PELAJARAN YANG MEMBAIKKAN MASA DEPAN.	Wahai kalian yang keras hatinya, belajarlh utk dikritik, belajarlh utk kalah, belajarlh utk menerima pendapat orang lain.... janganlah berdebat hal yang tidak penting hanya utk mempertahankan pendapat pribadi.....
MENUNDA IKHLAS = MELANJUTKAN GELISAH	#bagi yang merasa, sgera berubah yaa... :)
sentrap-sentrup ra rampung2 squint emoticon	oh damn... everything's going worse.... I never expected Eschatology is that horrible....

My Profile Picture... :)

It's Tarot card for 9th force of arcana, The Hermit :D

Someone please give me an inspiration....

Gak ada liburan dalam kamus hidupku squint emoticon
Is that so?

Consider that as "Persona"

Target : Sesudah C1, dalam waktu 1 minggu harus dapat mengumpulkan data yang kompli.... Sesudah C2 tinggal analisis. Terus ditulis :)

Penelitian Eschatology begins! :D

frown emoticon

Kita hanya "satu", bagian kecil dalam "semua". Namun tanpa gabungan dari "satu", "semua" tidak akan ada....
Satu untuk semua, semua untuk satu

Nurmalitha Puspitaningrum Terima kasih :)

Persona!!

Nonton Insidious bareng TSC di Empire.... masih membayang2 pikiranku... squint emoticon

Amelia Nucifera, kalau nonton bioskop gak usah narik2 jaket orang yaa. . . :D

Telkomsel memang paling Indonesia :D

Damn....

Dengarkan aku.... merindukanmu... :) #

Hampir lupa, my brother sekarang ultah.
Mas Aji keren, ultah bareng Amerika yang merdeka 235 tahun yang lalu.

Ditambah juga ternyata 4 Juli merupakan hari kematian 3 presiden Amerika, John Adams, Thomas Jefferson dan James Monroe. . . 4 Juli memang hari keramat utk amerika :D

Smoga dgn itu mas aji bisa sehebat Amerika tpi dalam sisi yang positif :)

Hidup Amerika! :)

It's our judgement....
God's ordeal is upon us.....

I can sense my determination.... It's decided.... Now I know what I'm living for :)

Seeker of Truth..... It's in me

..... something's strange in my mind.....

Ambiguitas makna....
Jari metal :)

Saatnya friday movie mania with Telkomsel ☺

Seek more for the "truth"....

Happiness, eh?
Itu kata yang aneh di telingaku hingga stahun yg lalu.... dan sekarang aku mngerti... :)

I used to live in sorrow.... in loneliness.... in a deepest thoughts
But now I realize something....
I'm not alone

No need for happiness.....
No need for sadness.....
damn....

Once more..... it's an emptiness.....
my heart doesn't feel anything

It's still unstable, isn't it?
I see..... I guess my heart hurts.....

Gak ada gunanya.....
Aku menyerah.....

Back To School.....

The death will always awaits you..... always....

Any struggle is useless.... The End draws near.... YOU
can't do anything...
The death will always come, always awaits you..... just
understand it, feel it

Ya Allah, smakin banyak kebenaran yang aku tahu....
semakin aku terjebak dalam jurang pertanyaan yang
lebih dalam.....
Ayolah phoenix, keluar dari jurang itu, carilah
jawabannya, carilah kebenaran sejati dan lihatlah dunia
bersinar dengannya

You brought something to my heart.....
Something that I never felt before.... with my emptiness

The moment man devoured the fruit of knowledge,
he sealed his fate... Entrusting his future to the cards,
man clings to a dim hope.
Yes, the arcana is the means by which all is revealed.
Attaining ones,
dream requires and stern will and unflinching
determination.

Who we are shapes what we do. What we do shapes
what we experience. What we experience shapes who
we are. In this great cycle, lies the one true answer.

Beyond the Beaten Path lies the absolute end.
It matters not who you are, Death awaits you.

The End, The Death, The Judgement, The Ordeal....
draws near....
You all humankind, be prepared....

Misery is a harsh mistress....

I'll always be by your side..... don't worry :) #

What is there to gain by staying in this world for a long
time, anyway?

Don't be a person who can't escape his fate.....

Everyone is waiting to die if you think about it. ...Some
just have longer to wait than others.

for me, or you, or anyone... the meaning of our lives is
something that we make but don't see.

the meaning of my life is not something I should
worryabout.....
It's really what others think of my life or what I was able
to do for them.

Fate is nothing

If your path to your fate is closed... open it with eyes and
heart of determination.....
feel the bright light of your future :)

Open the path of fate....
I don't believe fate if it's predetermined.....

Focusing is the only worst thing I can't do squint
emoticon

Thou art I and I am thou....
It's a representative power from your inner mind

Wisdom is a product of logical rationality of doubtful
inner self

Thou must know the fate....

I choose my fate of thine own free will.....

I've made a "contract" with my inner self.... It's a
determination

The only answer of your life meaning... is the end

you'll understand.....
Every things that live... will be disappear...

Find it... the true meaning of life

Memories are ambiguous... Old ones can be replaced
with new ones, creating a new reality.....

Man cannot face death without first finding meaning in
life... But the world has realized that any meaning in life
was lost long ago.....

Every human being will become like "The Lost"...
leading to the extinction of mankind, and the end of the
world.....

Two in harmony surpasses one in perfection....

Death is not a hunter unbeknownst to its prey, one is
always aware that it lies in wait. Though life merely a
journey to the grave, it must not be undertaken without
hope. Only then will a traveler's story live on, treasured
by who bid him farewell. But alas, my guest's life has
ended, his tale left unwritten.....

I may discover an answer to my question...the truth of
my existence.

The truth exist in the end..... lies between life and death

Death is not a hunter unbeknownst to its prey, one is always aware that it lies in wait.....

Even if there was a thing as eternity, how would we ever know? It would be the same as if it didn't exist.

Die..... and the path will be closed

As proof of one's life, there exists death. This proof exists as a flame, painfully burning one's life away. Yet though a life crumbles to dust, time moves ever onward.....

follow your own path to seek the true answer of truth of your existence.....

feel the severe struggle.....

He who had been your proof, your life itself...The answer has been lost, never to be found again.....

Tear up your fear

The end is coming near.....

You protected this empty, wavering world with your own hands

So now just fold your wings and sleep peacefully.....

Enveloped in eternal tranquility, love through all eternity

The Fall.... It's the end of everything

Death, is something you don't need to fear,,,,,,
Face the death, understand it, feel it.... it lies the true answer of your life

The uncertain, unforeseen, the unexpected..... It's not fate, It's a probability of life, the path you must choose.....

Admit it..... face the fate of your own.....

"Whichever path you choose, I will respect your decision. However, only you will bear the responsibility for your actions, no matter what end they may bring about."

"I chooseth this fate of mine own free will"

It's a promise, it's a contract..... I'll bear it until my life is burned away

Agustus 2011

Well.... It's not the matter what will you do in this month, but what will you get.....

My own target..... Al-Qur'an research this month...
Its contained mysteries, its prophecy, its language, its meaning.....

My brain + my mind..... Go!

ketidakterbatasan kekuatan ruang dan waktu..... terasa

Tell your inner self.... you are NOT alone!

Sebuah ambiguitas makna dan konsep bergejolak dalam
lautan jiwaku.... damn

This tears..... of loneliness

Human's existence is never without meaning.....
I hope I'm still on the right path.....

See? It's my own struggle.... no one would understand it
I'm alone

Search for a wisdom :)
Go go go

Gara2 aku belajar sedikit sejarah sihir kuno, tarot, myth,
demon, dll, orang2 mlah jadi berpikiran aneh2 --"
Padahal aku mempelajari atas dasar ilmu pengetahuan,

It's in me....

My only reason to live is to find for an answer..... of life's
greatest question

Still.... I'm in the middle of 2 paths..... I'm confused, once,
I still need a lot of learn
This world contains too much and ambiguous mysteries

Cahaya bulan menusukku, dengan ribuan pertanyaan,
yang takkan pernah ku tahu, dimana jawaban itu.....

Do you believe in fate?

So that's it.... it looks like I've missed something in my
theory

Filsafat oh filsafat.....

It's time to move..... If you believe in fate, then you have
no future

So that's how it turn out.....
I just don't want it become irrational

Jika mendung telah menghalangi kalian, maka

Ada alasan kenapa pemerintah menetapkan ini semua
kawan, jgn buat kesimpulan sendiri2..... lebih baik diam

Thanks to 'Kokopandaz Itu Koko, now I've completed
my theory about diversity....

Kita hanya butuh satu persamaan untuk menyatukan
berbagai perbedaan :)

September 2011

Feel it, think it, learn it

Don't you notice it? Everything needs an end to have a
beginning

Shalt thy path be illuminated through the ordeal and
prophecies.....

Lack of information and lack of patience of people
throughout the world.....
So that's how "they" planned all of this scenario, huh?

The struggle of my heart..... seek for a revelation.... for a
truth

Who's God? What Its shape? Where is It?
Some dumb questions.... well, can you answer it?

Hear the voice of your inner self.... feel it

dream requires and stern will and unflinching
determination.

God doesn't allow human to know some secrets, huh?
Then for what your brain is created?

The most profound wisdom.....
hear it....in the whispers of the silent voice within ones
heart

well, kita lahir secara "tiba-tiba", dituntut untuk sesuatu secara "tiba-tiba", bahkan kita akan bingung knp kita bsa "tiba-tiba" ada di dunia ini dengan tuntutan-tuntutan yang jga ada scra "tiba-tiba" sebelumnya.....dan kita tidak akan tahu "tiba-tiba" apa lagi yang akan terjadi pada hidupmu, krna kau tidak bsa memegang hidupmu secara penuh.... Dunia ini penuh ke"tiba-tiba"an.... kmu tidak pernah berharap untuk ada di dunia ini kan? Semua terjadi secara "tiba-tiba".....

Berterimakasihlah kalian semua pada setan dan iblis, tanpa mereka kita tidak akan tahu mana yang baik.... :) Karena mereka ada untuk menuntun kita menuju kebenaran,... Kita tidak akan pernah tahu mana yang benar jika tidak tahu mana yang salah kan? Jadi salah dan buruk itu ada untuk yang benar dan baik... Terima kasih oh setan :D

Manusia memang kreatif melaksanakan godaan setan, wah, wah

The only thing that always ambiguous to me is concept of mind and heart.....

Once you have the courage to face doubt of your inner self, your path will find its bright guidance

Besok sekolah.... damn....

Aku masih butuh hari2 damai tanpa urusan sekolah....

Aku bertanya pada bapakku, "Pak, apa fungsi sekolah?" Beliau menjawab "sekolah itu utk lulus." well, itulah pendapat dari mahasiswa S3 manajemen pendidikan.... terasa agak sederhana, ternyata bermakna juga.... Think.....

Well.... my parents will go back to Sumbawa tomorrow....

Apa itu bahagia?

human beings are teachable, improvable and perfectible through personal and communal endeavour especially including self-cultivation and self-creation.....

kata orang sempurna itu tidak mungkin, tapi apa salahnya mendekati sempurna

bagaikan limit mendekati tak berhingga.....
Two in harmony surpass one in perfection.....

There's something wrong in my mind..... damn

Dengan senyummu, senjata membeku, tentara bernyanyi, ikuti tingkahmu tak ada lagi naluri menguasai, perlahan berganti naluri berbagi.....:)

.....silenced

complexitas menyerang lagi.....

Terkadang, hidup itu tidak membutuhkan tujuan, tapi membutuhkan makna :)

Kau mencari makna hidup kawan? Percayalah, kau takkan menemukannya, karena makna sesuatu hanyalah diketahui orang-orang yang merasakannya :)

لَكُمْ دِينٍ وَلِيَّ دِينِكُمْ

Ayolah, berfikir, berfikir

Statusku smakin tak terupdate akhir2 ini,,, haha Gara2 kelas 3, aku terpaksa mngucapkan selamat tinggal utk sementara kepada pemikiran-pemikiran aneh dan kontroversial yang ku buat,,, :D

I'm the rationalist..... I'm the determinist.... I'm the phsycian.... and I'm the philosopher.....
Brain is my sword

Do you know who I am?
I am the Truth Seeker

Conspiracy Theory? I'd say goodbye buddy, I won't touch that topic for some month :)

Don't ask me anything about that anymore

Oktober 2011

I'll show you what my mind can do!

Well, everything's full of mystery, , ,

Kau tahu kawan? kondisi para generasi muda kita yang sedang akan menghadapi ulangan sejarah esok hari ini menggambarkan Indonesia besok saat menghadapi

semua faktor peruntuhnya..... :)

As long as you have brain, no fear

Terkadang, semua akan terlihat jelas jika kita melihatnya dari aspek luas....

So, zoom out-kanlah pikiranmu hingga berbagai aspek

dan hal dapat terhubung dan menghasilkan konklusi yang valid :)

Katakan padaku teman, apa arti sebuah kebahagiaan?

owh damn.....

karena hidup banyak rasa

every transaction in the world must sum to zero.....

Katakan mudah untuk hal yang dibilang orang sulit....

gain something, sacrifice something.....

The time when someone is falling down is the time when he forget his friends....

It's simple, your God

I don't think God goes around damn people to hell :)

Now I realize something....

The hidden truth can only be seen by courage and bright light in heart :)

Ketika entropi tak lagi meningkat.....

Feel it.....

something you never understand....

I don't think God goes around damning people to hell :)

Why'd you so afraid?

Find it, understand it, feel it.....

aneh-aneh itanimulli.... besok aku buat namanya Indonesimulli :D

Don't you think life is ambiguous?

This universe always needs a harmony, a balance.... That is why there's a law called The Equivalent Exchange :)

Oh sial.....

Pling tidak aku bisa membantu membereskan ruang ambalan sebelum diambukkan.... mnyusun kmbali memori

"Memories are ambiguous, a new ones replaced the old ones, creating a new reality" - Pharos

If limit x approach zero of $1/x$ is infinity, then zero will be the initial, infinity will be the end, and one will be the God :)

Kesempuranaan sepenuhnya hanya ada pada pada perbedaan selaras.....

layaknya yin dan yang, gelombang stasioner, hitam dan putih.....

"Two in harmony surpass one in perfection" :)

Full of ignorance..... I always want to be

Now I've got another fundamental theory.... :)

The theory of harmony perfection

Ex ratione causae efficiens

Tuhan.....

"Sesuatu" yang orang-orang bilang sebagai tempat mengadu, atau apapun itu..... aku rasa.....

Tuhan, ku merindukanMu

Everything should be balanced.... in harmony.....

Mau download film, tpi bingung film apa....

Human hearts are weak....

Human minds are pity....

Thou shalt hear the voice of thy inner heart.....

As foolish as you point it.....

Human never want to admit it....

with this foolishness, an answer will come

"two in harmony surpass one in perfection"

Fate, the bearer of cruelty.....

Tell me buddy, do you believe in fate?

Making the wisest of decisions requires one to escape from the desires of temptation.....

Jadilah seperti gas mulia, :)

making our escape.....

Limited by morality, traditions, law, and religion?

Every teardrop is a waterfall..... :)

WAKE UP HUMAN RACE.

All of us are the brothers and the sisters. We have the
power to finish all of the wars and the darkness. If we do
not wake up, we will be too late and the darkness will
arise...

I'll see a new sun rising.....
new light

In this world, there are strong men and weak men.
Strong men take everything and weak men die.....
Hmm.... close to evolution thory

Musuh dari musuhmu adalah temanmu.... :)

Every siren is a shymphony and every tear is a

Death and all his friends.....

Thou, son of man, fealth thy power throughout you,

HUMAN, such an arrogant creatures.... you have the

Only man with a pure eyes to face destiny can find a
great answer of life's greatest question....
Remember, Nothing Is True

Teman dari musuhmu adalah musuhmu, musuh dari
temanmu adalah musuhmu, teman dari temanmu

adalah temanmu, musuh dari musuhmu adalah

Nothing is but the truth.....

Every lie contains truth and every truth contains lie.....
remember that :)

In other words, NOTHING IS TRUE

Enjoy the moments you have together, because nothing
lasts forever.... :)

If you want to fly, all you need is friendship... :)

The world is overflowing with many things, reveal
every unknown to you.....
I am but a seeker of truth

Sometimes hope can turn people into madness.... isn't
that right buddy? :)

When other people blindly follow the truth, remember
Nothing Is True.

When other people are limited by morality or laws,
remember Everything Is Permitted.
We work in the dark, to serve the light.

Don't ever comment everything just with a mere
translation....
It full of mysteries.....
Like they said, every lies contains truth and every truth
contains lie
Remember amici, Nothing Is True

This world contains profound mysteries,
You need to understand it, before believe in it.....
Every truth just a mere imagination, , , , ,

well, it's really a "perspective"

I know the sun must "set" to "rise".... :)

Through chaos as it swirls,
It's us against the world. :)

Life will be more beautiful with every smile on

Va bene.....

forget and forgive :)

Well, well buddy.... home sweet home :)

Ada 3 cara untuk mencapai puncak pohon

1. Memanjat sendiri
2. Duduk di atas daun/batang yang lagi tumbuh
3. Berteman dengan burung

"Many ways lead to Rome" :)

Dengarlah pepatah lama, Banyak jalan menuju Roma kawan, jangan terpaku pada 1 jalan

Death is personified as an anthropomorphic figure or fictional character from the beginning of humanity.

Belajar bagaikan menyusun rantai yang sangat panjang :)

Sebelum kau berharap memiliki kepercayaan orang lain, buatlah dulu kepercayaan akan diri sendiri :)

It's not about winning, it's about fun! :)

Tiada yang abadi... Dunia selalu berubah dan ditata ulang...

Jadi tubuh dan bahkan kesadaran sebagai pribadi hanyalah ilusi...

Remember buddy, Enjoy every moment you have together.... because nothing lasts forever :)

Tujuan hidup adalah mencari makna hidup.....

Belajar itu mengisi air ke sumur tanpa dasar.... tidak akan pernah berhenti :)

Best music in my ear this year: "Every teardrop is a waterfall" and "Paradise" by coldplay in their last album "Mylo Xyloto" :)

It really inspirative!

Everything I know is wrong
Everything I do, it's just comes undone

And everything is torn apart....
It's the hardest part.

Orang pintar tidak akan berhenti mempertanyakan dirinya, orang kaya tidak akan berhenti memperkaya dirinya, orang yang bermimpi tidak akan berhenti menggapai mimpinya, orang beriman tidak akan berhenti memperkuat imannya....

itu sebuah pola kawan, utopia, jangan kaget melihatnya, itu hal yang wajar, kalian manusia :)

wake up human race....

Jangan melihat segala sesuatu secara sempit, jangan mendeklarasikan sesuatu tanpa fakta dan kebenaran, jangan melakukan sesuatu tanpa alasan, jangan berfikir dengan kesederhanaan, jangan maknai tiap kata dengan kebodohan!

Orang yang mengatakan Indonesia mengecewakan adalah orang yang hobinya kecewa :)

Ayolah kawan, berfikir positif, jangan kebanyakan kritik, kecewa, mengeluh, dan lain2.... Jika kita ingin yang terbaik untuk Indonesia, just do it!!

2012, the beginning of the end

Once upon a time, we burn bright
Now all we ever seem to do is fight
On and on...
And on and on and on...

Target 2012 :

1. Timeline umum sejarah peradaban manusia dari mulainya Bronze Age hingga renaissance selesai
2. Pemahaman kesalahan sistem ekonomi dunia selesai
3. Mampu menganalisa ilmu sosial lebih cepat dari sekarang (Just you see dad :), my skill's not just in exact science)
4. Berhasil mengontrol paling tidak 2 dari 7 musuh manusia (Pride, lust, greed, envy, sloth, gluttony, wrath) (ini yang tersulit)
5. Meraih inner peace (ini yang lebih sulit lagi!)
yah, smoga tercapai.... Go on phoenix, reborn everytime your spirit dies!

Computer science, or Computer Engineering..... hmmm

Capitalism is the root of all evil in the world.....

Once upon a time somebody ran
Somebody ran away saying fast as I can
I've got to go... got to go

Kena sindrom berfikir lagi.... damn!

Don't you know, everyone, even everything always

This world is just a mere illusion....

Confussion never stops....

All I want to be....living in perfect symmetry

It just for somebody listen into what you say.....

How can you know it if you don't even try?

Every step that you take
Could be your biggest mistake
It could bend or it could break
But that's the risk that you take
What if you should decide.....?

kenapa akhir-akhir ini sering pusing ya.... (dasar
penyakitan_{squint} emoticon/ payah)

Apa ini cuma aku atau memang orang lain merasakan
hal yang sama?

Apa tiap orang akan merasakan seperti ada cacing
menggeliat di otaknya ditambah dengan denyutan
teratur di kepala setelah berfikir keras cukup lama?

Well,,,, now I'm stuck in my own dualism riddle of this
world....

so many puzzles, so many mysterries..... so many truth

Learning how this country works...

Kita tidak tahu apa yang ada di balik pintu jika tidak
membukanya :)

You want to be wise? then think...

Philosophy is the god of knowledge, god of wisdom

Payah

Semakin lama semakin kehilangan keinginan untuk

udah lama gak berfikir

People moving all the time
Inside a perfect straight line
Don't you wanna curve away

Reign of love
I can't let go
To the sea I offer
This heavy load
Locusts will
Lift me up
I'm just a prisoner
In a reign of love...

Locusts will
Let us stop
I wish I'd spoken
To the reign of love
Reign of love
By the church, we're waiting
Reign of love
My knees go praying
How I wish
I'd spoken up
Or we'd be carried
In the reign of love...

Februari 2012

You can climb a ladder up to the sun
Or write a song nobody has sung
Or do something that's never been done

Dan sekarang aku merasakan dunia di sekelilingku
berputar....
Oh god, what's happening to me?

Trapped.... in this illusion....

Mendengarkan curhat pak ***** disaat kagalauan kami menatap cahaya senja menyelimuti pekarangan sekolah semakin menghilang di horizon barat, hanya sekedar untuk sebuah memori.
Damn you "Godfather"!

I want to save this earth, this world, not in the name of God, not in the name of divinity, but in the name of humanity

Remember human! Religion divide us, but faith and belief unite us.
So let's unite, in the name of humanity, in the name of this world!

fallacious arguments....
those who not understand.....
Those who trapped in simplicity and illusion....

Well, well.... It's a memory

Now, it's time to move, for battle of illusion.....
Recognize it, laws arise not from divinity, but from reason

For me, it's still the end of the beginning.... but for world, this is the beginning of the end.....

17 eh? oh damn, my time is running out....
Well, C'mon Phoenix, we don't hav much time left....
We must do! For our world, for humanity, for better future!

Oh damn.... apa gak ada kata yang lebih panjang dikit daripada "HBD"? HBD... HBD.. dan HBD....

Gak usah ngucapin klw gak niat... menuh2in timeline aja.

It's how to force.... and how to hold

Aw dude... Coldplay, you are very awesome! :D

argumentum ad ignorantiam, ab uno disce omnes

Right or wrong....?

From one person, learn all people.

Remember, all learn from one....

Remember, you are mortal...

Remember, everything's changed...

Remember, I'm losing doesn't mean I'll stop...

Remember, big gamble has big risk...

Remember, a man can always change his destiny.....

Remember, the sun always set before rise

Remember, your dream is your reason to live....

Remember, winner takes nothing.....

Remember, nothing lasts forever....

Remember, forget doesn't mean forgive....

Remember, this world is an illusion....

Remember, life is for living.....

Maret 2012

Remember, running away is not a survival.....

Remember, to live is to love.... and to understand

hmm, what a mess. I never thought I broke through right in the core of the pseudo-tornado yesterday. Glad I'm okay. It can be our lesson.

Remember, nature gives what human give...

Happy brithday for Christopher Anthony John Martin (Chris Martin) in your 35. You're the best musician I ever know. Hope u with Coldplay can make more awesome music for us.
I'll always be ur fans :D

Come on, remember, everything's not lost.....

Remember, love bounds you.....

Remember, to keep is more difficult than to get....

Remember, wisdom needs sacrifice and sacrifice needs wisdom....

Remember, God understands us.... If not, then He is not God.

well, I'm glad I've been recovered from my ill. Just "hold" my healthy condition as long as I can.
Remember, life is a cycle of good and bad....

For years I learned conspiracy just from books and internet. And yesterday, I've seen it with my own eyes.
What a f*ck!
Remember, a smallest seed can always be a biggest tree.

Facts are always different than the ideals....
Remember, this world is not as beautiful as we think.....

Like what crusader said....
Remember, always speak truth even it means your DEATH.

Remember, your fate and future is not predetermined.....

Remember, beyond the relative always lies the true absolute....

Remember, time is a cruel changer.....

Remember, to find the one true path one must seek guidance amidst uncertainty

Now I see its true meaning, Remember, We forgive, for give and we forget, for get.....

To give is the opposite of to get, then forgive is also the opposite of forget. So remember, if you don't forgive then you must forget and if you don't forget then you must forgive.....

What a perspective things..... Remember, every lie contains truth...

Now it comes to my mind again.... Remember, social links are the base power of your mind....

One advice for any conspiracy researcher or truth seeker... Remember, every truth contains lie and every lie contains truth... to be wise is to recognize and understand every truths and lies you get...

Now I'm learning the past for the future.. haha Remember, learning history means learning uncertainty....

Believing in fate will give me nothing I guess... hmm... Remember, it's for you to decide, viva la vida or death and all his friends... Memento mori o humana!!

Beyond the absolute end, lies an unpredictable path Beyond the beaten paths, lies a glimmer of hope Beyond the destroyed hope, lies a drop of tear Beyond that drop, lies a huge waterfall of will and determination. Beyond that waterfall, lies a bright future. Remember, light in thy heart is thy only guide to walk through dim paths of life.

Well, sometimes we didn't recognize the limitless power we have... Remember human, we're not animals...

At least, that's what I learned... Remember, lack of information can turn your emotion to uncontrolled.

It's not about where you will go, but it's about how you go there... Remember, better lost with honor and justice than win with disgrace and dishonor.....

It's all about your honor and meaning as human! Don't make yourself as animal by disgracing every deed you've done. Remember human, even at our most powerless, human's existence is never without meaning!

well, it looks like some people didn't fully understand some of my status... Maybe I better write the meaning for my every status Remember, human's perspective always creates thousands meaning.

Sorry for my thousands meanings status update guys. I just don't want my facebook wall become a wailing wall (Tembok ratapan) like jews. My wall is a reminder wall, a wisdom wall.... Remember, I'm a philosopher....

It's about how to hold thyself... Remember, just do what you need to do, speak what you need to speak, and think what you need to think....

It's the most difficult and the most wanted thing in my life, wisdom.... the highest degree of knowledge Remember, be an owl...

It's disappointing, just few people realize the true essence of knowledge... Remember, no knowledge is useless.....

well, let's call it a day... Remember, life is a cycle of black and white, good and bad, fall and rise, yin and yang....

It doesn't matter how long you will keep, it's always changed... Remember, faith and trust is your life force in society....

same destination, same reason, same target, different everything... that's unity Remember, your true power comes from colleagues with whom you share your ideals.....

Everything must have a reason.... that's how nature works Remember, we all are part of a system, part of a plan...

It's how you decide things... Remember, fight uncertainty with flexibility.....

Damn, this problem won't end softly I guess... Remember, faith and trust is the most powerful weapon of your heart....

Hey you "maha"student (LOL)!, Can't you just sit and watch with faith and positive thinking to goverment? You make riots with the name of intellectuals, but you all do all those riots like u don't have brains. Remember, deeds represent thoughts.... what you think shape what you do

Do you remember why we are different? because our intellect, our brain differ us from other creatures.... but I

think the reality is far away from the ideals..... Brain is misused....

Remember, Brain defeats Brawn....

A word or two, my friend

There's no telling how the day might end

And we'll never know until we see

That there's gold in them hills.....

So don't lose heart

Give the day a chance to start :)

Nothing matters

Except life and the love you make....

Untuk semuanya...

Ingat, orang yang mengatakan bahwa Indonesia mengecewakan adalah orang yang hobinya kecewa.... :)

Indonesia gk akan maju jika orang yg berfikir positif terus berkurang :)

wah payah, kasihan demokrat.... (salah sendiri main politik)

Ingat, ada 2 pembual dan pembohong pling besar, politikus dan pengacara....

akhir-akhir ini wallku jadi gak "bersih"... pyah...

dlu aku pke status rumit berbahsa inggris, gak ada yg intervensi, skarang mlah pada mainan di wallku squint emoticon

Back to old self again I think, think with complexity and enjoy the abstraction.... then anyone won't disturb...

Don't ever underestimate the power of knowledge....

Remember, complex exist from the simple and simple exist because of the complex....

Aw, why I never have a period of liberty of my "carrier"?

Remember again and again, life is a cycle of virtue and evil, black and white, yin and yang....

we live in liberty, do anything we like, because we have the full control of our lifes. Yeah, Everything is permitted....

But remember, don't ever disgrace your degree as human and the essence of humanity....

April 2012

whistle..... too much perspective....

Remember, your thought represent your world you see....

If you really realize it, number is the only absolute guidance in your path....

Remember, the infinite is imaginary and irrational number....

Ad infinitum et absurdum! So, everything must have an end

See! It's really number I can't see.... Damn, the essence of number is too hard to be thought as a firm understanding.

Remember, the signs and guidances are all over around you.... only those who have determination can see it

Well, there's so many things in this world I don't know yet... too complex, too vast, too wide..... celebrate its magnificence, its brilliance

Remember, more things you know, more stupid you feel you are....

Well, this will be the last time I log on facebook 'till next week....

Hocus pocus phoenix, Focus! No thoughts, no complexity, no curiosity....and... no emotion.

Thy path will be opened with guidance.... thy determination will light upon streets of mind and time..... follow it o seeker of truth. Thou shalt get what thee deserve.

Remember, what u get depends on what u give.....

One statement for UN....

"Come back!! and I'll destroy you again!!" --(N-gin)--
Let's celebrate our liberty :D

Well, I hope it will be a nice holiday :)

Too much task to be done....

Make film, research some issues, create a history timeline, end some game, watch some anime, study for more knowledge, bike for health, practice music..... et cetera, et cetera....

And thanks for 2 movies, 1 dinner, and 1 film survey "adventure" for Sasongko and Vallery....

Hey human, do you want to know the most crucial and important things in this world?

It's Information....

Only those who hath determination and a brightful heart can understand the true meaning of information and knowledge....

Remember, what you know shapes what you see....

Be an owl doesn't means u must wait forever....

Do small things is part of do big things... It's one way progress.

Remember, every existance is never without meaning....

Be a chandelier of hope, light up every dim souls from eternal darkness of solitude and sorrow.... Guide thy own path with bright glimmer of determinations and dreams.... then guide the other...

Remember, better protect the small glimps of hope than curse over the darkness in vain....

Truth... sometimes hidden in an abstraction of complexity, waiting for the light ones, the true seeker come..... only those with clear and clean faith of mind can understand its presence.

Allow me, the truth seeker, to begin my journey for you.....

Knowledge, Information, Wisdom.... all contains truth. I pledge my oath for it

Every one have its own ideals.... its own world....

We have liberty but we don't see it, we have time but we don't use it, and we have love but we don't feel it.....

Liberty, time, and love.... provide your life to have its meaning....

The good thing about science is that it's true whether or not you believe in it....

Truth is one.... and absolute....

Everyone's opinion is just a relativity perception.... blur the true color of the truth...

Well, just imagine so many colors combined together, all you get will just a black and dusty color...

We must use the ideal ways to develop practical ways....

Be flexibility.....

"Tiba-tiba langkahku terhenti. Sejuta tangan telah menahanku.

Ingin ku maki mereka berkata, Tak perlu kau berlari mengejar mimpi yang tak pasti

Hari ini juga mimpi, maka biarkan, ia datang di hatimu" --Ebiet G.Ade (Camelia II)--

Power of Destiny, eh? I understand now....

It's an odd of change. It's the foundation of your deeds....

Somehow, I felt something I can't understand.... It's like... a new candle of hope light up far beyond our future. I'm glad seeing it. Light of reliefness and determination flows in my mind.

All this time my thought always full of the fact that our future doesn't have much hope. But I know it's wrong.... Remember, don't ever curse the darkness if a glimmer of hope still exist.....

We were born to fight and we will die with honor.....

Mei 2012

Knowledge is power... too much and too great for human....

that's why religion limit your mind by "believe".....

Now it's makes sense...

But unfortunately, vast majority of people don't understand the true essence of knowledge. Its power to destroy, or its power to help

Yet, because of it, many common people are so easily "fooled" by the intelligence..... believing what they shouldn't believe

Remember, knowledge is power, and every power needs responsibility to use it

Weak mind, less control....

strong mind, full control....

That's 'thing' inside thee.....

What thou call it "emotion", what thou mention it "desire"

This is Fate, not a mystical higher power, but a system created by human's hands....

It's obvious now,

It's not like our destiny or fate are predetermined, it's all a system created by human.... No mystical power controls our fate.... it's all on our hand.

But abstractly, it's like a web with so many influence of millions people. Even our actions just influence small factors of our own fate with some complex chain of reactions of people's actions.

It's complex, but now I understand, how "Fate" works.....

The fundamental theory is that everything MUST have a reason,

The only way to predict our future is by shaping it ourself....

Manipulate the chain of reactions in a predictable sequence with limitation of choice and factors... and voila, we control our fate.

It's hard to do it anyway, u must be an expert strategist to make a plan to shape our future properly by synchronize every factors of millions people in a great web of destiny.

And you know what? the only one who can do it perfectly is God :)

But in my research, human can do it too... of course, with intelligence.... that's why Knowledge is always be a greatest power.

heh, as I predicted before, understanding is better than believing.....

Believing is for something unseen, something abstract, and something that out of possibility.....

At least, now I understand Fate with some logical explanations....

The sign that I couldn't read,
or a light that I couldn't see,
some things you have to believe,
but others are puzzles, puzzling me.....

Still.... mysteries really won't leave us

Kita bisa berpengetahuan dengan pengetahuan orang lain, tpi kita tidak bisa bijaksana dengan kebijaksanaan orang lain....

Because you just can lead anyone to know, but you can't make him think...

Find your own wisdom human.... But do it with faith and guidance will come upon you and light your way to a bright hope.

You can exit your fate human.... you can escape from every destiny that awaits you.... but remember, you change your fate means you change the other's too. Remember, Fate is a huge great web of everyone's choices, influences, and possibilities....

Life is for living... so live up your life human ;)

We live in a beautiful world.... ;)

Even the imaginery can be counted... the true essence of math

you live with people,... so ur success depends on the people, or how u interact them.

X and Y....

The land, sea, rivers, trees, the stars, the sky

That and this....

We're part of a bigger plan

Don't know what it is

You can take a picture of something you see
In the future where will I be?

You can climb a ladder up to the sun

Or write a song nobody has sung

Or do something that's never been done....

You are wise if you don't think you are wise....

Remember, wisdom is abstract perfection of knowledge...

Mysteries are all around you, giving you meanings of life....

Even what happen a second later is still a mystery...

That's why everyone, remember, mysteries won't leave us, never.

Nobody is innocent.... even a sheep watching 2 wolves fight each other is guilty....

Remember, in a great web of destiny, a little deed can influence a big effect....

The moral of any story matches the temper of the man who tells it...

well, that explains the variations of story in history....

We can't avoid it

Assume every person have at least 10 different paths, and assume in an isolated area, there are lived 100 people...

That made 10x100 possibilities of that area fate....

Imagine it in this world, millions of people with

hundreds choices of life paths, that made a very huge abstract web of fate....

That's why religion forbid you to think it, or at least question it.... It's too abstract and complex to be thought by human.

Just believe in it ;)

men's struggle for peace is only and always be a journey.... it's never be an arrival.

But at last... you can have the smallest peace exist.... because you can love

Someimes hope can drive people mad....

That's why even hope must be controlled in our deepest mind.

"My name is Ezio Auditore. When I was young man, I had liberty but I did not see it; I had time but I did not know it; and I had love but I did not feel it. It would be thirty long years before I understood the meaning of all three."

3 good news today... but... it's not totally good. Still out of my hope, but that's okay, I won't regret it, life goes by....

"How could I regret the only life I ever know?" -- Altair Ibn La'Ahad, The Master Assassin -

Don't talk big about fate.... it's too complex for you to understand...

Just do what you think is right, and let the great webs of destiny react your deeds with some kind of chain of reactions, result in one event and destination....

Thought that the variables of this equation is way too many, the possible future created will be many too....

That's why future is not predetermined, there is no fate.

"you won't know what will gonna happen 'till you try it!"

What is predetermined fate for then? ;)

Future is virtual multiinterpreter human.

My journey won't reach its end....

Thought that this is an endless flow of process, I just do what I think is right.

I am seeker of truth....

Do you need some guidance?

Then find the answers in your heart, hear the most profound voices in your deepest maze of thoughts....

Thou shalt find thy path ;)

Brain defeat brawns...

That's why strategy is always needed, not only depends on power....

"To defeat 20,000 army with just 2,000 army, we need the right strategy" --Apple, Suikoden 2--

Orang berani bukanlah orang yang tidak memiliki rasa takut, tpi orang berani adalah orang yang tidak pernah memikirkan rasa takutnya :)

Two in harmony surpasses one in Perfecion....

You live in universe, so u must obey the law of universe....
You live with people, so u must follow the way of the people...
You live by the God, so u must do everything in the name of your God.....
You're not alone human, u must obey and follow the way of your surrounding.

Magic is just a science which we don't understand yet...
Remember, everything must have a purpose, and a reason...

Seeing the past... feeling nostalgic...
Ternyata aku udah seperti ini cukup lama, aku bahkan tidak mengira SMP sdah mulai berfikir akan kompleksitas dunia :)
I was.. and always be a lone philosopher

Thanks to the vast wonderful world that gives us life, and keeps us guessing...
The essence of mysteries... is not the solution, but the way u solve it. U just can keep guessing, wondering, suspecting, every complexity and beauty of this world...
Remember, mysteries won't leave us

Feel free to use ur liberty, as long as u hav it...
But remember, u live with people, so ur liberty will be limited by the ways of the people :)

simplicity is the source of complexity....
a great complex tree of life, must be based on one simple thing....
That's why everything in this world must be connected somehow, nothing is totally different or opposite....
even religion, magic, and science hav a connection.
It is all united in one fundamental simple thing.... God

U can climb a ladder up to the sun, or rather song nobody has sung, or do something that's never been done...
Do anything outside of ordinary.... because normal is boring.

The balance of the world is the its true soul,

black and white, night and day, good and bad, yin and yang....

Juni 2012

time to get serious....

For few days, I left my complex thoughts somewhere in the mazes of my mind.... but now, it all haunt me again, remind me about this vast wonderful world of mysteries....
The world that I can't leave, the world that I can't enjoy... the world that I need to reveal....

Now I missed my old self... I must get free from this 'illusion' as soon as possible.
Time can't wait.

Damn, what kind of sickness is this....

That's it....proof of perspective ambiguity in human's mind....
We can't avoid it... we live in thousands worlds of image and perspective

Walau mungkin sebagian dari kata-kata itu merupakan kutipan, yang terpenting dari pengarsipan bukanlah pengabdian memori dan informasi? Walau juga mungkin semua ini tidak akan berarti untuk kebanyakan orang, tapi yang terpenting terkadang kata-kata yang terlepas itu memiliki makna tersendiri yang juga terkadang mengingatkanku akan banyak hal yang sering ku lupakan. Meski hanya rentetan status-status, semua ini tetaplah karya. Dan bukankah karya sekecil apapun harus bisa dihargai dan diapresiasi?
